**Required data for a tender for regulation valves**

Operating data	Unit	Water	Liquid	Steam	Gas
	Inlet pressure*	bar			
Output pressure*	bar				
Temperature*	°C				
Flow rate*	m <sup>3</sup> /h				
Flow rate*	kg/h				
Standard flow rate	Nm <sup>3</sup> /h				
Standard density*	kg/Nm <sup>3</sup>				
Operation density*	kg/m <sup>3</sup>				
Vapour pressure	bar				
Critical pressure*	bar				
Isentropic exponent*					
Compressibility factor*					
*Minimum information for an offer					
<b>OPTIONAL</b>					
Type					
Nominal diameter, nominal pressure and connection					
Housing and core material					
Characteristic line					
<b>ACTUATOR</b>					
<input type="checkbox"/> Pneumatic actuator <input type="checkbox"/> Electric actuator					
<b>Special equipment</b>					
Pneumatic	Function when losing air	<input type="checkbox"/> OPEN <input type="checkbox"/> CLOSE			
	Available air supply				
Electric	Voltage, Protection class,				
	Frequency, Special equipment				
<b>ACCESSORIES</b>					
Positioner	Pneumatic				
	Electro-pneumatic				
	Signal range				
	Special equipment				
Filter Regulator	<input type="checkbox"/> YES <input type="checkbox"/> NO				
Accessories					
<b>OTHER REQUIREMENTS</b>					
Certificates					
Coating					
Ambient temperature					
Documentation					
Special equipment
